beginning of historical time human beings have lived in the main Archipelago and the Kargad Lands east of it, while the dragons kept to the westernmost isles-and beyond. People have puzzled at their choosing the empty sea for their domain, since dragons are "creatures of wind and fire," who drown if plunged under the sea. But they have no need to touch down either on water or on earth; they live on the wing, aloft in air, sunlight, starlight. The only use a dragon has for the ground is some kind of rocky place where it can lay its eggs and rear the drakelets. The small, barren islets of the farthest West Reach suffice for this..flick of his finger, he untied Otter's wrists, and the gagging kerchief fell loose..Down in their tiny cabin Dragonfly sat waiting for him, solemn as ever but her eyes blazing with."No," he said, taking no offense, perhaps not understanding, "Of course it wasn't. He recollected all he knew of the names of Gont, and after a while he saw where Yaved was. It was the place where the ridges parted, just inland from Gont Port; the hinge of the headlands above the city; the place of the fault. An earthquake centered there could shake the city down, bring avalanche and tidal wave, close the cliffs of the bay together like hands clapping. Dulse shivered, shuddered all over like the water of the pool..circles of ripples from his movement were slight and small. It was shallow for a long way. Nobody on Roke starved or went unhoued, though nobody had much more than they needed. Hidden from the rest of the world not only by sea and storm but by their defenses that disguised the island and sent ships astray, they worked and talked and sang the songs, The Winter Carol and The Deed of the Young King. And they had books, the Chronicles of Enlad and the History of the Wise Heroes. From these precious books the old men and women would read aloud in a hall down by the wharf where the fisherwomen made and mended their nets. There was a hearth there, and they would light the fire. People came even from farms across the island to hear the histories read, listening in silence, intent. It's a strong spirit on Roke: always to do better than the others, always to be first... The art becomes a contest, a game. The end becomes a means to an end less than itself... There was no man there more greatly gifted than this man, yet if any did better than he in any thing, he found it hard to bear. It frightened him, it galled him..dirt, rock, water. Taking dragon form himself, he flew to battle with Orm over Mount Onn. "Flame and fire in the midnight air" could be seen from the palace in Havnor. They flew north, Erreth-Akbe in pursuit. Over the sea near Taon, Orm turned again and this time wounded the mage so that he had to come down to earth and take his own form. He came, with the dragon now following him, to the Old Island, Ea, the first land Segoy raised from the sea. On that sacred and powerful soil, he and Orm met. Ceasing their battle, they spoke as equals, agreeing to end the enmity of their races..Sunbright had not been gone three days when a new stranger appeared in town: a man riding up the south road on a good horse and asking at the tavern for lodging. They sent him to Sans house, but San's wife screeched when she heard there was a stranger at the door, crying that if San let another witch-man in the door her baby would be born dead twice over. Her screaming could be heard for several houses up and down the street, and a crowd, that is, ten or eleven people, gathered between Sans house and the tavern..Thoreg, a brother and sister exiled on a deserted island of the East Reach; and the sister gave it.He had lost something and had to find it. He did not know what he had lost, but it was in the fiery tower, the place where stone stairs went up among smoke

and fumes. He had to go there. He got to his feet and shuffled, lame and unsteady, back down the valley..Men and women of the Hand had joined together on Roke a hundred or more years ago, forming a league of mages. Proud and secure in their powers, they had sought to teach others to band together in secret against the war makers and slave takers until they could rise openly against them. Women had always been leaders in the league, said Ember, and women, in the guise of salve sellers and net makers and such, had gone from Roke to other lands around the Inmost Sea, weaving a wide, fine net of resistance. Even now there were strands and knots of that net left. Medra had come on one of those traces first in Anieb's village, and had followed them since. But they had not led him here. Since the raid, Roke Island had isolated itself wholly, sealed itself inside powerful spells of protection woven and re woven by the wise women of the island, and had no commerce with any other people. "We can't save them," Ember said. "We couldn't save ourselves." "I'm tired of teaching and talking," he said. "I need silence. Is that enough for you?"
